It is well known to us that the Innovation week highlights various initiatives undertaken and it promotes discussions on various thrust areas related to initiate innovation and entrepreneurship in our country. This year it was celebrated indeed in such a way, where the ideas, discussions, thoughts, recognitions and all other important facets were displayed in a unique and innovative way.

The Keynote Addresses by Shri Sridhar Vembu, Founder, ZOHOO Corporation along with Shri. Gautam, Founder, FarEye Pvt. Ltd were fantastic as it was a treat to hear from such talented and established figures. The Panel Discussions on Innovation, Human Values, & Sustainability and Best Innovation and Start-up Practices in HEIs were the need of this timeframe where we have to have certainly conscious along with

promoting the sharpest minds to Innovate. The underlying balance between these ideas has helped our Institutional members along with IIC members to identify the gap in communication and it has enriched us as a faculty to impart deeper and innovative thoughts into the mind of the students.

More than 20 participants had joined this session virtually which is visible in the picture attached herewith. The sessions were a brief demonstration of the Strength, Weakness, Opportunities and Challenges that an Institution can face while trying to develop a new system. The sessions were really fruitful for the students as they observed how they can be supported by the Ministry of Education if they generate newer ideas to convert them into modern Start-ups. The brief takeaways of the session along with some snapshots of our participation were also shared in our Institutional Facebook Page through the link:
