

Internal Hackathon for Smart India Hackathon, 2023 Self-Driven Activity Quarter 4

Objective

1. To conduct the Internal Hackathon to select the finalists for the Smart India Hackathon, 2023.
2. To create an environment of design and critical thinking where the students will be expressing their ideas.

Benefits in terms of learning/skill/knowledge:

Seven teams participated in this event and they presented their proposals/ideas through PPT in front of three internal Jury members, regarding a specific problem statement, given in Smart India Hackathon Website (www.sig.gov.in).

The students participated in this pitching event really enthusiastically and their ideas were really mesmerizing. We are really overwhelmed with their ideas and thinking and the hard work they had put behind these ideas.

Session plan/details of the event:

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex had organized a Pitching Event 'Internal Institutional Hackathon 2023' on 15th September; 11 AM onwards. The session was coordinated by Ms. Arpita Chatterjee (SPOC for SIH), Assistant Professor, Department of Mechanical Engineering.

SurTech

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex
(Formerly known as Dr. Sudhir Chandra Sur Degree Engineering College)
540, Dum Dum Road, Surer math, Kolkata: 700074
