

Session on Treatment of Domestic Wastewater for Sustainable Development Self-Driven Activity Quarter I

Objective:

To help the students get an exposure about the technological treatment of domestic wastewater for sustainable development.

Benefits in terms of learning/skill/knowledge:

The students understood how the technological developments are taking place to treat domestic wastewater for sustainable development.

Session plan/details of the event:

The Institution Innovation Council in collaboration with the Department of Civil Engineering of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex has organized an online Webinar session on " Treatment of Domestic Wastewater for Sustainable Development" on 13th January, 2023 at 11 AM onwards for all the students and faculties.

Mr. Anjishnu Biswas, Research Scholar (Environmental Engineering), Department of Civil Engineering, IIT Guwahati was the distinguished Guest speaker for this session. Mr. Biswas shared the developments and innovations taking place in the field of Wastewater Treatment for the Sustainable Development. The session was really insightful for the students as they got immense exposure in the innovations to treat domestic waste water for the sustainable development of the society.
